

LEDrail 1000 & 2000

Long, longer lasting lights.

Retail

IP
40

Linear LED solution perfect for fluorescent replacements or elegant runs of continuous evenly distributed light. Easily suited to offices, retail or conference rooms thanks to the remote driver and the fitting's ability to be mounted floating, recessed or flush with your ceiling.

Fast magnetic mounting,
toolless installation

Proudly manufactured in
South Africa using
European LED Technology

kV Protection:
1kV-2kV,
4kV or 10kV on
request

Better light
through research.

Complicated construction, simple job.

Fluorescents are dead, long live LED.

LED fittings today are more affordable, reliable and able to provide a better quality of light than fluorescents ever did, yet many of our homes, offices and workspaces still house these outdated fittings. We decided to change that with a unique design that not only provides a sleek aesthetic but also makes the best use of all of an LED's superior attributes.

Take a deep dive into the mechanics of our LEDrail 1000 & 2000 and you will notice a high level of precision. Our engineers spent months designing this luminaires housing to ensure a happy marriage between cutting edge tech and aesthetic value.

Our designers also crafted these LEDrails so they can be joined to create continuous lines of light that can stretch as far as your imagination without gaps or dull spots throughout its length no breaks in light.

KEY FEATURES

5 SIZE OPTIONS

- LEDrail 1000 & 2000 104 1100mm
- LEDrail 1000 & 2000 106 1700mm
- LEDrail 1000 & 2000 108 2300mm
- LEDrail 1000 & 2000 110 2800mm
- LEDrail 1000 206 (double)

MOUNTING OPTIONS

- Ceiling mount
- Floating mount
- Pendant mount

MODULAR

- With extra Lumen Packages up to 16900 lm.

HOUSING

- Frosted for a harmonious band of soft light.
- Clear.

Optional:
Bluetooth, Wifi,
Dali & Bi Level.
Casambi App
featured above.

*25°C is for Textbooks, Not Africa's Sun:
All EW Lights are designed for the 30°C Reality. Minimum.

Specifications

From green grocers to parking garages.

Our premium LEDrail fittings are designed and manufactured in South Africa for South Africans. They feature high quality Italian and German components but engineered for our African climate.

Spot the difference?

The **LEDrail 1000** features a remote driver allowing for flat surface mounted installation.

The **LEDrail 2000** has a piggy-back driver designed to tuck into P2000 trunking.

Distribution Options

The light you need, where you want it.

Diffusers provide a low glare solution to your lighting needs without compromising on light quality.

These indoor luminaires project a wide spread of light and are ideal for lighting up most small to medium retail environments, with a soft feel and effective lighting solution.

A Closer Look

Engineered to the highest standards.

Diffuser

A harmonious band of light pours through our diffusers for an even, simple light source to keep you focused on the task at hand.

LEDs

Source from the best component manufacturers in Europe to ensure maximum lifespan, quality and light spectrums.

Construction

With months of R&D behind it, this sleek LED fitting was designed to be both elegant and powerful with loads of tech designed into a thin luminaire that won't demand much attention but delivered in spades. This unique luminaire comes standard with a 5-year warranty, carries greatly reduced running costs and is considered flicker free ensuring staff and customers never suffer from headaches and the like which can often accompany fluorescent fittings.

Installation

Easy to install, **Saving** you time & money

The LEDrail 1000 & 2000 are simple to install with 4 main mounting options. The LEDrail 2000 is made to fit P2000 trunking perfectly.

LEDrail 1000

Ceiling Mount

Available with an intelligently engineered magnet system to securely mount to most metal surfaces. **On request**

Floating Mount

A mount for areas where a ceiling mount isn't possible. **On request**

Pendant Mount

For hanging the fitting at your desired height. **On request**

Magnetic Mount

For placing the fitting on any metal surface. **On request**

LEDrail 2000

P2000 Mount

Our LEDrail 2000 is made specifically for P2000 trunking and has a unique magnetized mount.

Disclaimer:

While every effort is made to ensure the accuracy of technical details at the time of publication, we reserve the right to modify or upgrade any product or component specifications without prior notice. Our products undergo continuous improvements in technology, energy efficiency, safety, and cost-effectiveness to meet evolving industry standards and supplier updates.

All upgrades are made to enhance product quality, and as such, no claims or complaints will be entertained regarding specification changes.

We are ISO 9001:2015 compliant, and our assembly line adheres to IEC 60958 guidelines. Our products are covered by a Product Liability Policy, and our LED products come with a 5-year warranty (T&Cs apply—please contact Head Office for details).

Diffusers

A

Standard Diffuser

The LEDrail 1000 & 2000 has a 180° distribution for a broad soft light to light up large areas.

W

Winged Diffuser

This added diffuser gives you the option to focus the light to a particular area. It also gives you the option to add colour to your light. **On request**

D

Type D Diffuser

The Type D diffuser enhances the visual experience by increasing the surface area in a unique way. It creates a beautiful, soft glow without any hot spots, resulting in a more pleasing aesthetic. **On request**

Lenses

A

Retail Lenses

The LEDrail 1000 & 2000 can now be fitted with retail 60°, 90° & Asymmetrical lenses.

B

60° Lenses

The LEDrail 1000 & 2000 can now be fitted with retail 60°, 90° & Asymmetrical lenses.

C

90° Lenses

The LEDrail 1000 & 2000 can now be fitted with retail 60°, 90° & Asymmetrical lenses.

D

Asymmetrical Lenses

The LEDrail 1000 & 2000 can now be fitted with retail 60°, 90° & Asymmetrical lenses.

Features

Standard across the LEDrail 1000 & 2000 range.

SABS Approved

Indoor

Sustainably Recyclable.

Acrylic frosted or clear housing

Lenses

Serviceable: All units are serviceable and all parts replaceable.

Colour temperature 5600K

Colour rendition index 80+

L&B Life Rating: L80/90 B10, 70 000 hrs

Modular.

Earth connection and CLASS I insulation fixture.

Ceiling mount

Suspended by chain or steel cable.

Extras

Optional Extras.

Casambi bluetooth technology.

All units can be fitted with Dali or bi-level driver.

Replacable 10 kV surge protection module

IES files available.

VOLTpro

Effective Lumen Output After Warm-up

We adhere to industry best practices in providing accurate Effective Performance Data (Lumens, Watts, and L&B) that account for driver and LED thermal losses during the warm-up period.

To ensure precise measurements, we conduct Energy and Photometric Testing only after the LED within the fitting has been powered on long enough to reach a stable and constant lumen output—achieving thermal equilibrium at an ambient temperature (T_a) of 35°C.

Unfortunately, some suppliers misrepresent efficacy by inflating lumen values 10–20% above the true effective output. This is often done by using raw LED photometric data, which:

- Excludes driver losses (typically 2–5%)

- Ignores thermal adjustment losses, which can take 20–240 minutes and account for 7–15% reduction in output

Given these factors, the actual Effective Lumen Output is often lower than raw values suggest. In extreme cases, some suppliers report only raw LED values, completely disregarding real-world performance.

For transparency and accuracy, we ensure our data reflects true effective lumens, providing reliable performance metrics you can trust.
